

# Neha Enterprises

Experience the Power of Automation

# About Us

Neha Enterprises boasts 35 years of expertise in automation, offering innovative solutions that drive efficiency and reliability. Our services include assembly automation, fixture design and development, measurement systems, and machine vision systems, all customized to meet the specific needs of our clients. We are dedicated to transforming businesses with cost-effective technology that enhances operational performance.

# **Our Vision**

To become a trusted partner for businesses seeking world-class engineering solutions, recognized for our expertise, reliability, and customer-focused approach.

# **Our Mission**

Our mission is to design and build high-performance, cost-effective machines and automation systems that streamline processes, minimize downtime, and maximize our clients' operational efficiency. We are committed to sustainability, innovation, and providing customized solutions that meet the evolving needs of modern industries.

# Our Expertise

- ❖ **Industrial Automation:** We specialize in automating industrial processes, from manufacturing and assembly lines to material handling and logistics. Our solutions enhance productivity, improve quality, and reduce operational costs.
- ❖ **Process Automation:** We streamline business processes, from order fulfillment to customer service, using automation technologies to improve efficiency, accuracy, and customer satisfaction.
- ❖ **Machine Vision:** We specialize in machine vision systems ,from Quality control, Dimensional Measurement, Part Identification, Barcode and QR code reading, Optical Character Recognition (OCR) to Assembly Verification. Our solutions increased efficiency, improve quality, reduce operational costs and enhanced safety.
- ❖ **Aluminum Profile Structures:** Design and fabrication of aluminum profile structure.
- ❖ **Retrofitting Services:** Upgrade and retrofit of existing machines and electrical panels.
- ❖ **Electronic Instrument and PCB Repair:** Expertise in repair services for electronic instruments and PCB cards

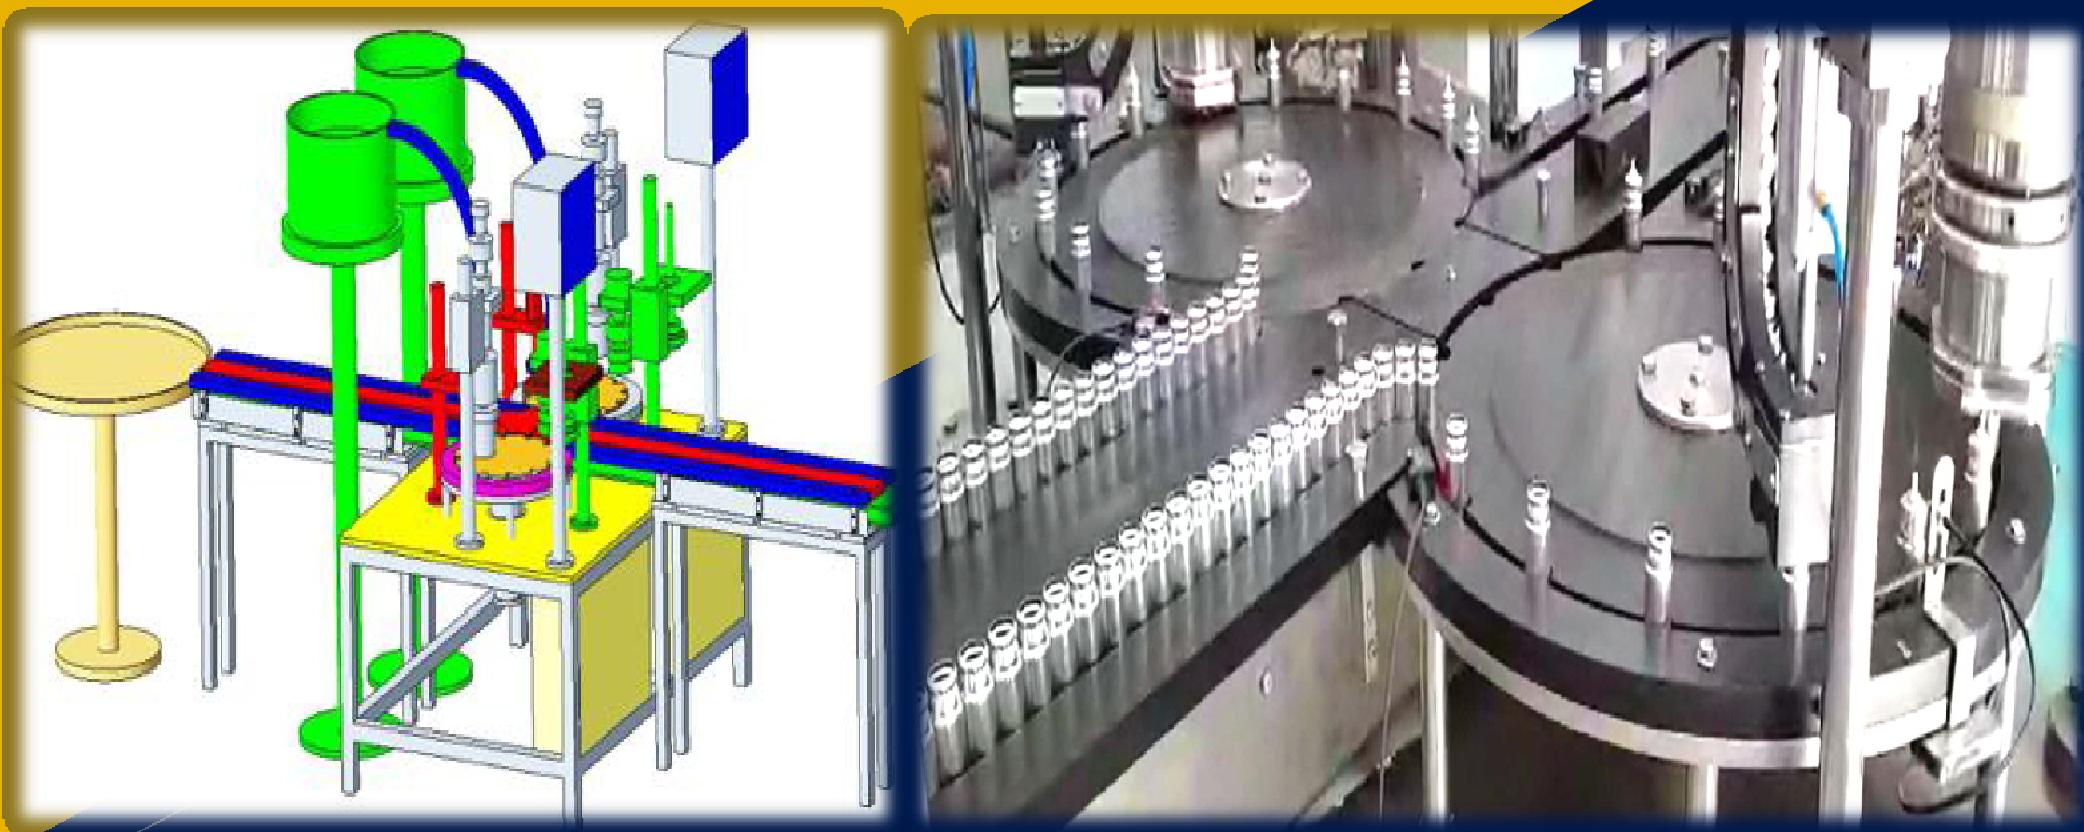

# Our Services

- ❖ **Automation Consulting:** Our experts assess your specific needs and develop customized automation solutions that align with your business goals.
- ❖ **System Integration:** We seamlessly integrate automation systems into your existing infrastructure, ensuring compatibility and optimal performance.
- ❖ **Installation and Commissioning:** Our skilled technicians install and configure automation equipment, ensuring a smooth and efficient implementation process.
- ❖ **Maintenance and Support:** We provide ongoing maintenance and support services to keep your automation systems running at peak performance.

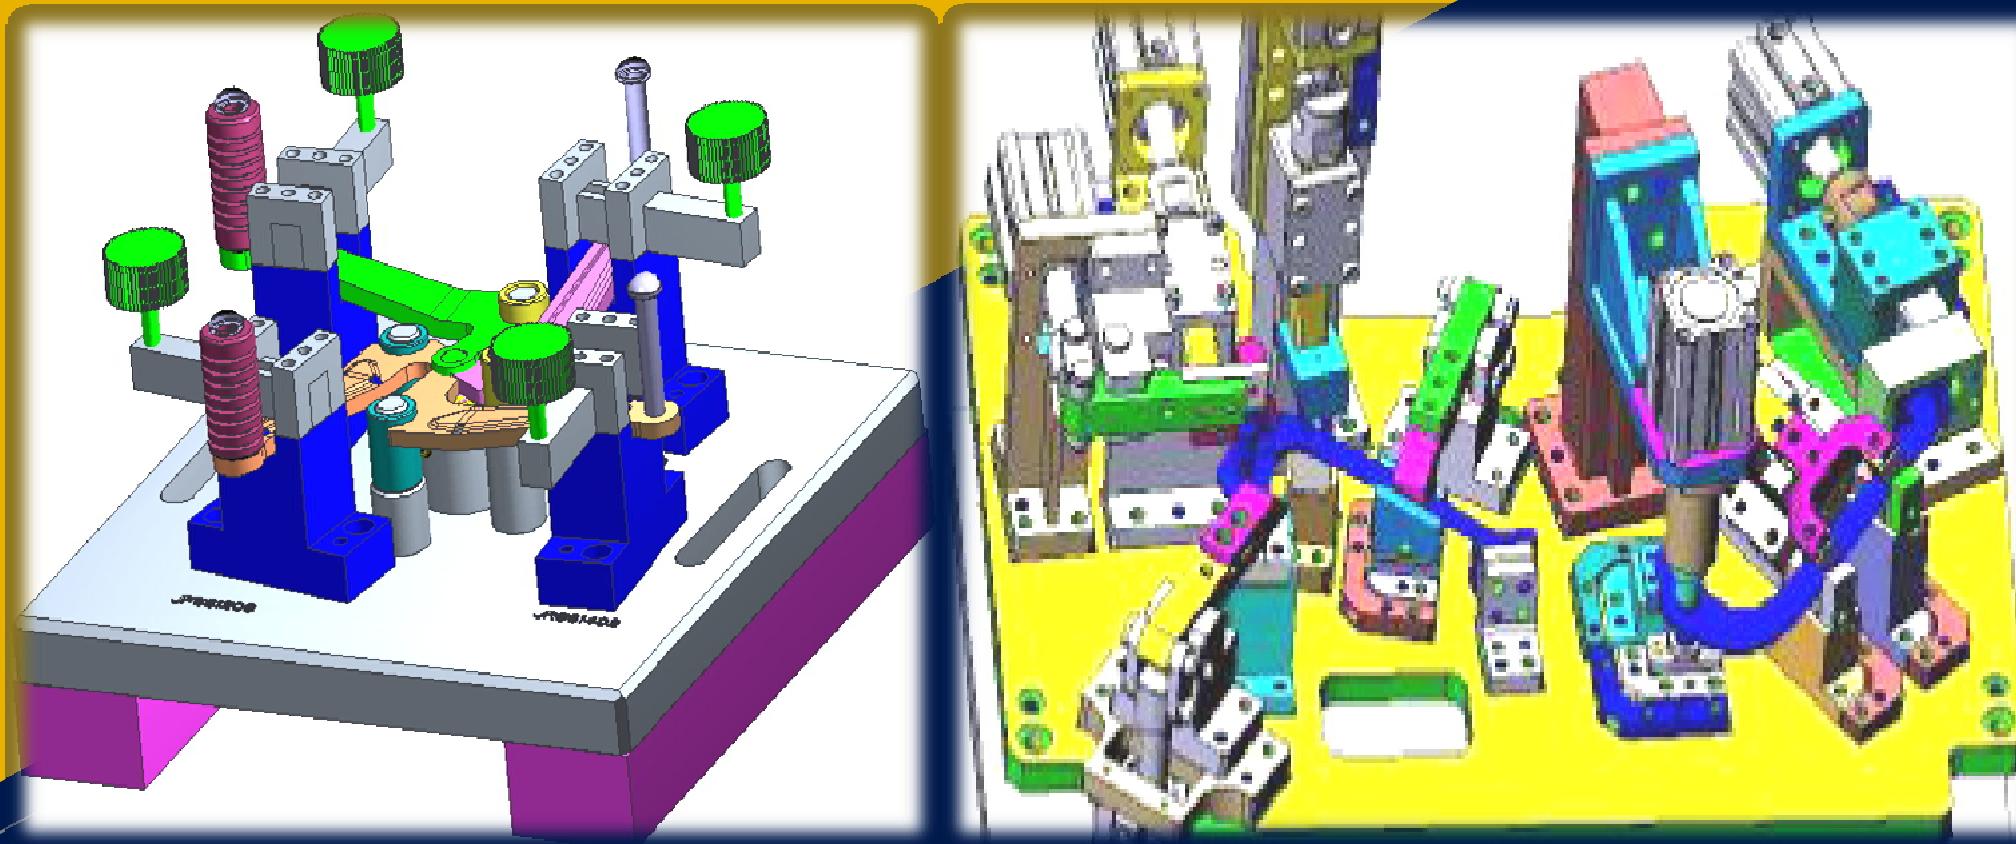

# Our Product

- ❖ Design and development of fully automatic/semi-automatic assembly machines.
- ❖ Machine vision systems, IOT based projects
- ❖ Pick and place systems, Fixtures designing and development
- ❖ Flat belt conveyors, Roller conveyors
- ❖ Aluminum profile trolleys, Workstation tables
- ❖ Electrical panel design and development
- ❖ PCB design, repairs, and development

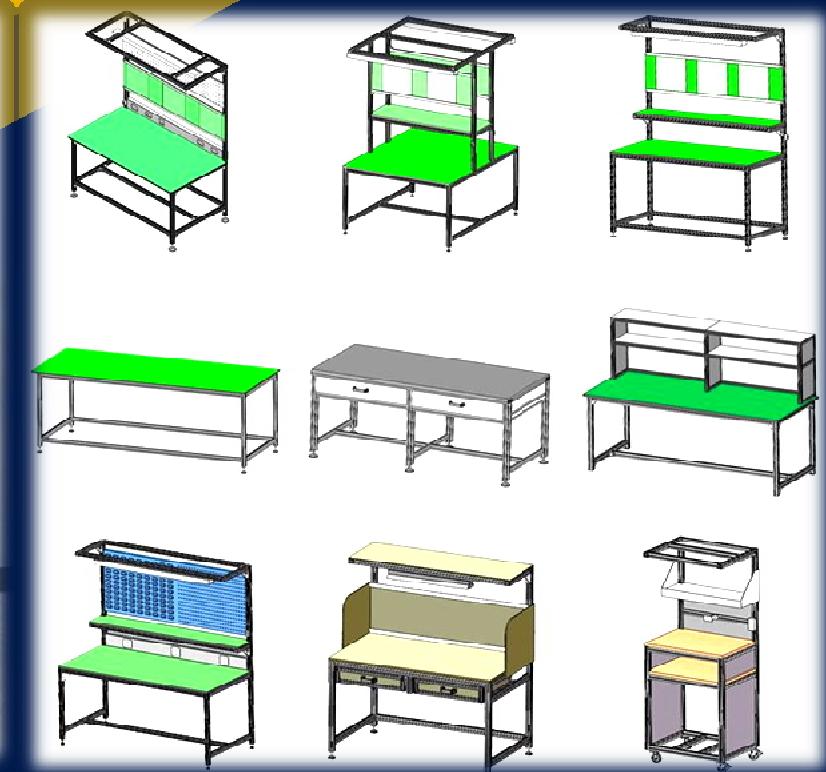

# Indexing Assembly Machine design and development

# Fixture design and development

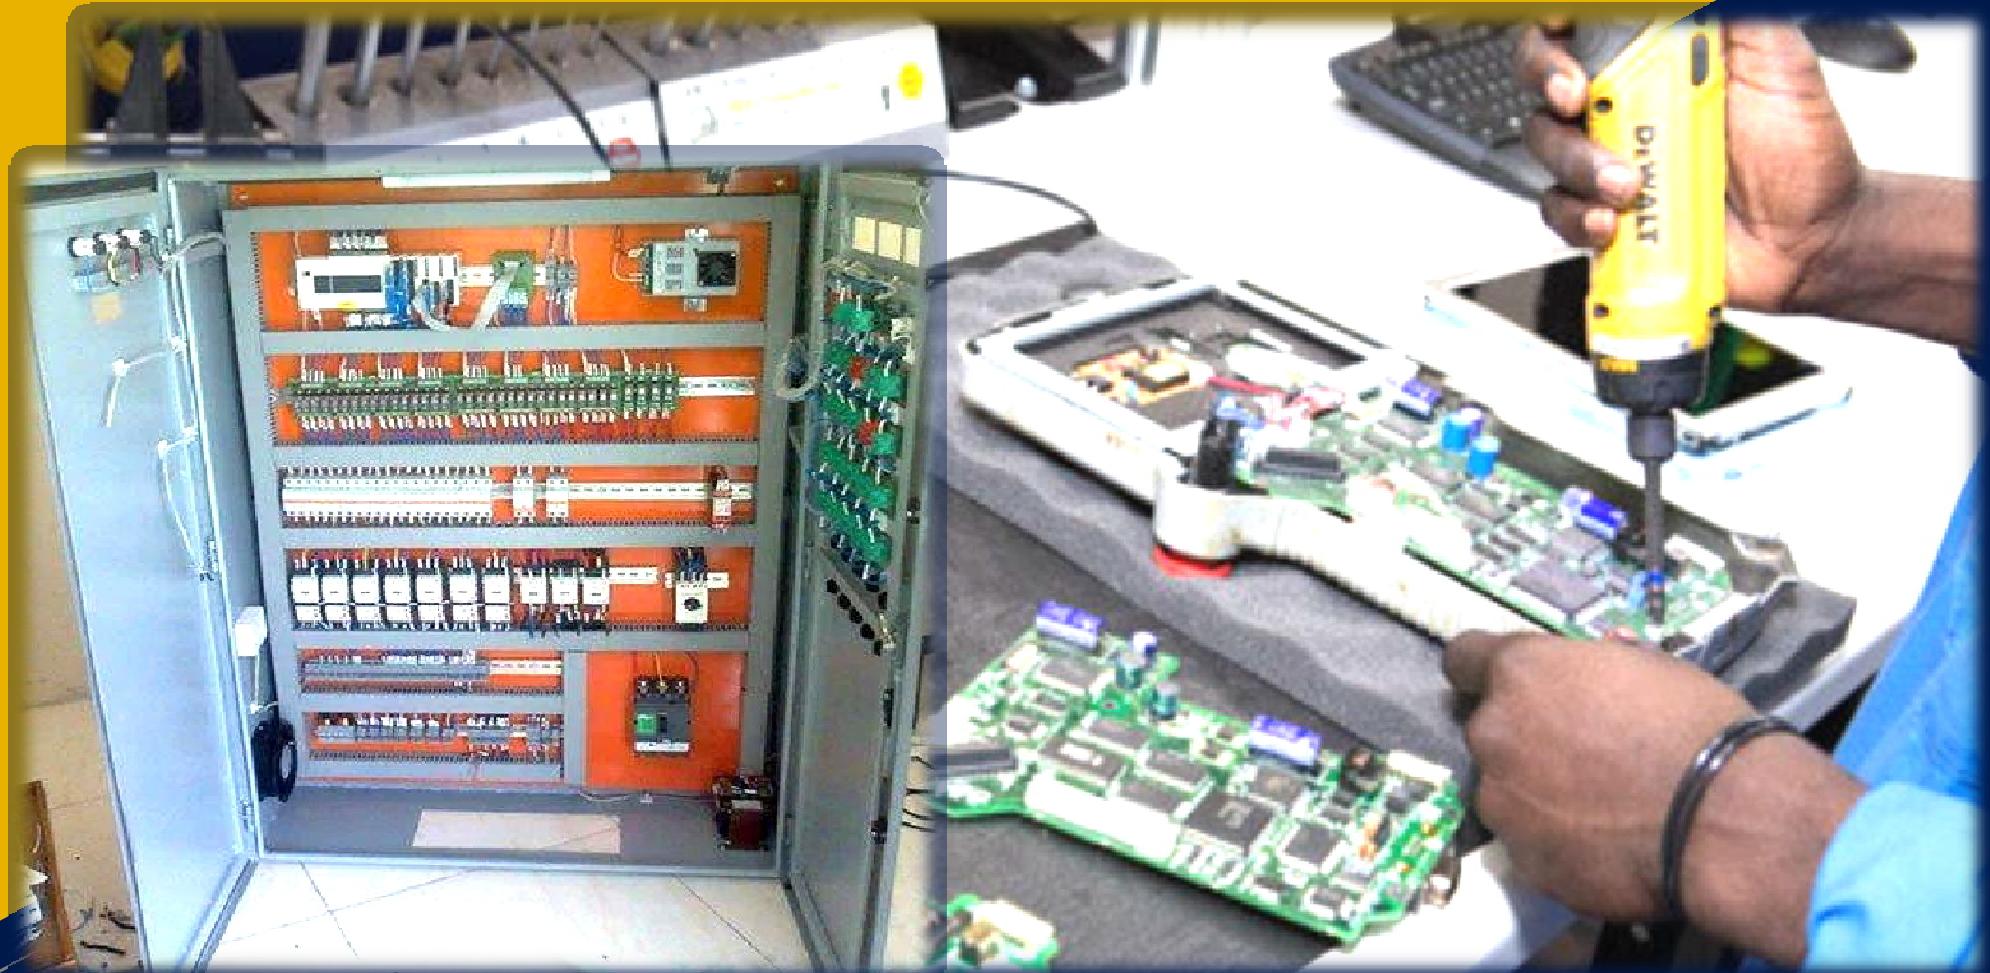

# Aluminum Profile Table/Trolley design and development

# Conveyor Belt/Roller design and development

# Electrical and Electronics design, development and repair

# Our Valued Client

**Endress+Hauser**

People for Process Automation

# SIEMENS

# Why Choose Neha Enterprises

- **Experience and Expertise:** Our team has years of experience in the automation industry, delivering successful projects for clients across various sectors.
- **Customer Focus:** We prioritize customer satisfaction and work closely with our clients to understand their unique requirements.
- **Quality Solutions:** We are committed to providing high-quality automation solutions that meet the highest industry standards.
- **Innovation:** We stay at the forefront of automation technology, continuously exploring new ways to improve our offerings.

# Thank You.
